Dayton SkyWarn Coverage

Dayton SkyWarn Frequency

146.640 – PL 123.0

Greene County – XWARN

147.165+ PL 123.0

Dayton SkyWarn Net W80K Activated

- *Only County Liaison Representatives check in First*
- **If you have Severe Weather to report – Break in with your Call SIGN and report**
- **If you're mobile and available to check on weather reports check in with Dayton SkyWarn**
- **Double Beep indicates Dayton SkyWarn net is activated**

Tornados or Funnel Clouds Take Priority

- If a Tornado or Funnel Cloud is spotted
break in
on radio traffic and state:

“Tornado” or “Funnel Cloud”

Additional Information Request

- Stay on frequency for a few minutes when making
a weather report, Wilmington Weather often times
will request additional information from reporting
station

Call Signs

- Identify yourself with your Call Sign when reporting
- You might hear both Dayton SkyWarn and Dayton
Weather from the net operators for our station identification - our call sign is W8OK

Information to Report

- Tornado – Funnel Cloud – Wall Cloud
- Wind speed
- Hail - size and amount
- Tree(s) – uprooted or down – size of tree
- Dead or Live tree – Branch size

Information to Report

- Flooding – more than 1 inch of rain per hour
- Structural or crop damage
- ❖ ***Do not report***
- ❖ Power outages or phone lines down
- ❖ Lightning or Thunder
- ❖ Disaster sirens activated
