# Volunteer Opportunities for Involvement

ARRL FIELD DAY

[www.arrl.org](http://www.arrl.org)

- **Friday evening/Saturday morning (27-28 June)**
  - Friday move large tables from shelter to parking lot
  - Antenna setup – Many hands required on guy ropes as we stand up two towers and one large vertical antenna – recommend at least 6-8 volunteers to aid antenna team
  - Tarps, Tables, Canopy Setup – Need many hands to get the tables and canopy setup in the parking lot and the tarps on the west side of the shelter
- **Saturday afternoon**
  - Participate in the education activities to learn new things – new rules state participation, not demonstration
  - Operate stations
  - Assist in logging contacts – each station performs better with two people
- **Overnight**
  - Additional operators needed for overnight period
  - Propagation is better on lower bands at night, try to nab hard to reach ARRL sections
- **Sunday afternoon (29 June)**
  - Need volunteers to safely lower antenna masts and take down canopies/tarps
  - Coiling up coax, stowing everything in BARC trailer

# BARC Field Day Site

ARRL FIELD DAY

www.arrl.org

- Sackett-Wright Park Shelter 1
- 39.631247N 84.065027W
- EM79xp
- Parking at parking lot on 1<sup>st</sup> left after entering park
- Avoid parking too close to shelter – that area is reserved for equipment loading/unloading and canopy setup

# Stations – 4A 0H Full Food Service and Visitor Display

Note: Generator and shore power to each station.

Parking Lot (tables, tents, and Education)

# Computers/IT

ARRL FIELD DAY

[www.arrl.org](http://www.arrl.org)

- All 4 stations are to be equipped with identical capability to perform digital modes in addition to SSB (CW possible through insertion of key into IC-7300)
- Laptops to be used on emergency power (not shore power) because they are an instrumental part of the station
- Laptops need batteries to operate during brief generator shutdowns occurring before overnight and around 6am Sunday
- N3FJP, wsjtx, fldigi all run on laptop at each station
- Ethernet cabling run to each station for shared logging - N3FJP server is hosted on higher capability desktop system
- N3FJP ARRL Field Day software, wsjtx, fldigi all to be loaded and tested prior to Field Day
- Windows Updates performed in advance to avoid updates during Field Day

ARRL FIELD DAY

[www.arrl.org](http://www.arrl.org)

- A part of Field Day often overlooked is copying the Field Day message from ARRL
- We need BARC members to tune in on either the Digital, CW or Voice message and provide me the message verbatim
- We get points for this
- You can do this Friday night before Field Day starts if able, or multiple times throughout the weekend until noon Sunday

# Logistics/Miscellaneous

- Picnic Tables (heavy) need to be moved Friday night at sunset out from the shelter into the parking lot
- If you're not part of a setup team, don't come to Sackett Wright until after 2:00 pm
- Allow power crew and IT crew uninterrupted access to the shelter until cables are run and checked out
- Tables/Canopy Crew shows up at 8:30 am and setup in parking lot
- Antenna and Hospitality setup crews – show up at 10am for breakfast, then start setup at 1030; Hospitality sets up initially under the canopy
- Coolers – we typically need a few coolers for all the water and varieties of beverages available. Coordinate with Tink if you have any
- Box Fans – We need several box fans, coordinate with Tink on that as well if you can bring one

# Logistics/Miscellaneous

- Courtesy – Use headphones when operating station
- Others – Don't carry extraneous conversations within 10 feet of any station – This is QRM
- If you are unassigned on any category but want to help, contact the people in charge of that category – they can assign you if they still need people
- The BARC website has a volunteer sign-up form on the Field Day page

THANKS!!!
